- This file layout should only be used for the Missouri Grade-Level administrations.
- File must contain a header row with all Column Name titles (see sample file). If a header row is not included, the
  first student will be removed from the file.
- File must contain the data in the column order from the file layout. If the column order and names order do not match the layout the file will not load.
- Fields cannot be longer than the value in the Maximum Length column.
- File must be in comma delimited (.csv) format. Commas are not allowed in any field.
- To save an Excel file as a comma delimited type .csv:
  - o Save file updates/changes within Excel.
  - o Open file in Excel, if file not already open.
  - o On the Windows menu bar, click File, then Save As...
  - o The Save As dialog box will appear. The line at the bottom of this box reads Save as type:
    - Click on the down arrow to the right of this line to open a drop-down menu.
    - Scroll down the menu until CSV (Comma delimited) (\*.csv) is visible.
    - Click on CSV (Comma delimited) (\*.csv) to select for the Save as type:
    - Click on Save on the right.
